

Muneeb Ur Rehman

Backend Developer (.NET Core & SQL Server)

muneeb.rehman1754@gmail.com | linkedin.com/in/muneebrehman006 | github.com/

I build robust, scalable backends using **.NET Core** and **SQL Server**. Transforming complex data into clean, secure, and high-performance APIs for web and Desktop apps. Highly experienced with call center API integrations and lead distribution systems.

Experience

Freelance Backend Developer

Jan 2023 - Present

Self-Employed | Remote

- Architecting scalable APIs using **.NET 8** and C#.
- Designing normalized database schemas in **SQL Server**.
- Integrating secure **JWT Authentication** and 3rd party payments (Stripe).
- Integrating call center campaigns (Ringba, LeadProsper) processing 100K+ API requests.

Open Source Contributor

2022 - 2023

GitHub Community

- Contributed documentation and bug fixes to .NET repositories.
- Built initial portfolio of 10+ console applications to master C# logic.

Technical Skills

Backend: C#, .NET Core 8, ASP.NET API, MVC Architecture, JWT Auth, SignalR

Database & Cloud: SQL Server, Entity Framework, LINQ, Azure Basics

Tools & DevOps: Git, GitHub, Docker (Basic), Visual Studio

Other: REST API, HTML/CSS, JavaScript, React.js

Key Projects

LeadsApp (Leads Manager & Rerouting)

ASP.NET WebForms, .NET Core API, React

- A complete leads manager and rerouting web application with a React frontend.

- Utilized Hangfire for management and integrated APIs for fetching leads from external databases.

Jaidad.com

C#, ASP.NET

- A complete real estate portal with multi-role authentication, advanced property search filters, and a real-time chat system.

AgentSync Dashboard

API, Dashboard

- A real-time performance dashboard featuring live activity logs, performance overviews, and comprehensive data visualization.

LMS System with AI

.NET Core, AI

- Learning Management System featuring AI content suggestions, student progress tracking, and secure Google Login.

Education

BS Computer Science

2026 - 2030 (Expected)

Virtual University of Pakistan

- Focusing on Data Structures, Algorithms, and System Design.
- Lead Developer for the university LMS project.

Certifications

- **JavaScript Expert & IT Specialist** - Certiport (2026)
- **.NET, C#, SQL** - JHY Techs (2025-2026)
- **Full Stack Web Development**(2022-2026)
- **Projects Management** - FFH Lahore (2026)
